CARRANZA FLED MEXICO CITY WITH TRAINLOADS OF MATERIAL

WASHINGTON, D. C., May 12.—President Carranza, his cabinet advisers and other adherents left Mexico City last Friday morning by train, apparently going in the direction of Vera Cruz, the state department was advised today in messages from the American embassy at Mexico City.

Carranza's train was preceded by numerous trains carrying troops, and equipment, supplies, records and archives. Artillery and supplies also were held in trains waiting at the railroad station some hours after Carranza left.

The dispatches, which were dated May 7, 8 and 9, and which were held up by the interruptions of the telegraph lines, quoted an official bulletin published in the Mexico City newspapers on May 8.

announcing that 13 cannon, ten trains of equipment, supplies, etc., and one train with funds which had accompanied Carranza's train had been captured by the revolutionists.

The newspapers of May 8, the dispatches said, published statements that there was no confirmation of reports that Carranza had been captured or that Generals Aguilar, Murguía, Barragán and

Ugarte had been executed. The dispatches told of a conference between General Obregón and Carranza on May 8 at Tacubaya, just outside of Mexico City, and said General González had appointed Juan Sánchez

Asensio and Aurelio Mendivil to take temporary charge of the foreign office and the department of the hacienda, respectively. They also said González had appointed directors general of posts, railways and telegraph lines.

MYSTERIOUS MURDER IS BAFFLING CHICAGO

CHICAGO, May 12.—The murder of James "Big Jim" Collins, proprietor of a restaurant famous in Chicago's night life and patron of music, remained a mystery today, despite examination of probably a score of suspects. Collins was killed near the entrance to his cafe late yesterday by a person who escaped apparently unseen. He usually was attended by a bodyguard, the police said, and a pistol was found in his pocket.

At least four theories were advanced by the police: That relatives of friends of his former wife, recently divorced, were involved; that Collins was a "black hand" victim; that his death marked a step in the labor and gunman war started with the murder of Maurice "Boss" Enright; or that one of his many known enemies made during Collins's rise from railroad track laborer to wealthy politician and restaurant leader, was responsible.

The first person to be questioned after the shooting was Mrs. Dale Winter Collins, his young bride, formerly a singer at the restaurant. She was at home when her husband was shot, the police said.

Odessa Taken By The Poles

CONSTANTINOPLE, May 12.—The Russian embassy here has received a report that the Poles and Ukrainians have captured Odessa, the most important city and seaport of southern Russia on the Black Sea.

WARSAW, May 12.—(By the Associated Press.)—Polish and Ukrainian forces have struck a mighty blow at the Russian Bolshevik front far north at Kiev and have driven the enemy back along the Dnieper river crossing. An important Dnieper river crossing has been captured, and serious losses have been inflicted on the Soviet army. Fighting is now going on over a front of approximately 420 miles.

Necessity of stabilizing the Polish line after the capture of Kiev, is said to have led to the new offensive, which extends from almost directly west of Vilnius to below Kiev on the Dnieper. Polish forces have crossed the Dnieper river at several points and have taken Wladimir after heavy fighting.

Northeast of Kiev the Bolsheviks have been forced across the Dnieper. Attempts were made by the enemy to destroy the railroad bridge at Belchitsa, but Polish units prevented this move and captured a large number of prisoners. Announcement is made that two Soviet regiments were annihilated in the fighting around this town.

From Kiev northward to the mouth of the Dnieper river, a distance of about 50 miles, the Bolsheviks on the west side of the Dnieper are slowly falling back.

CENSUS RESULTS

WASHINGTON, D. C., May 12.—Population statistics announced today are as follows:
Jackson, Mich., 48,771. Increase of 16,941, or 35.0 percent.
Haverhill, N. Y., 15,025. Increase of 1,898, or 12.6 percent.
Jackson, Tenn., 18,590. Increase of 3,641, or 19.5 percent.
Salem, Mass., 10,574. Increase of 2,412, or 23.1 percent.

Yale Wins First Honors In Intercollegiate Air Meet

WASHINGTON, D. C., May 12.—A confidential cablegram from President Wilson to Rear Admiral Sims in London, sent during the war, was read to the senate naval investigating committee today by Secretary Daniels. It expressed surprise that the British admiralty had failed to "use Great Britain's great naval superiority" effectively against the submarines and called on Admiral Sims for comments and suggestions based on "independent thoughts" and without regard to "judgments of any one on that side of the water."

The admiralty was "helpless to the point of panic" in the face of the submarine situation, the message said. Admiral Sims' reply, said Secretary Daniels, who presented the president's message in connection with his answer to Sims' charges against the navy department's conduct of the war, was "a long telegram of generalities of what the British admiralty was doing."

President Wilson's message to Sims follows: "From the beginning of the war, I have been greatly surprised at the failure of the British admiralty to use Great Britain's great naval superiority in an effective way. In the presence of a submarine emergency they are helpless to the point of panic."

"Every plan we suggest they reject for some reason of prudence. In my view this is not a time for prudence, but for boldness even at the cost of great losses."

"In most of your dispatches you have quite properly advised us of the part of aid and co-operation desired from us by the admiralty. The trouble is that their plans and methods do not seem to us efficacious. I would be very much obliged to you if you would report to me, confidentially, of course, exactly what the admiralty has been doing and what they have accomplished, and add to the report your own comments and suggestions, based upon independent thought of the whole situation, without regard to the judgments of any one on that side of the water."

The admiralty was very slow to adopt the protection of convoys and it is not now, I judge, protecting convoys on adequate scale within the danger zone, seeking to keep small craft from the grand fleet. The absence of craft for convoys is even more apparent on the French coast, than on the English coast and in the channel. I do not see how the necessary military supplies and supplies of fuel and fuel oil are to be delivered at British ports in any other way within the next few months than under adequate convoy. There will certainly not be ships or tankers enough and our ship building plant may not begin to yield important results in less than 18 months.

"I believe that you will keep these instructions absolutely and entirely to yourself, and that you will give me such advice as you would give if you were handling and if you were running a navy of your own."

Mr. Daniels also read a letter from Admiral Sims to former Ambassador Page, at London, written August 7, 1917, in which he said: "In this connection, I have a suggestion to make. I have received word practically directly from the president, that he was much displeased with my reply to his cablegram; that it did not change his opinion at all; that he regarded me as owned by the admiralty and so forth; that he seriously considered the advisability of replacing me by some other officer."

Yale won nine points and captured first honors in the first intercollegiate aerial meet ever held, at Mitchell Field, Mineola, L. I., a few days ago. The 100 mile race, reduced to twenty-five miles because of weather conditions, was won by A. W. Horne, pilot, and J. T. Tripp, mechanic, in sixteen minutes. Both are former army aviators now completing their college courses. Twelve colleges were entered.

HITCHCOCK ATTACKS THE REPUBLICAN MEASURE ESTABLISHING PEACE

WASHINGTON, May 12.—Democratic attack upon the Republican peace resolution was launched today by Senator Hitchcock, of Nebraska, administration spokesman who declared in addressing the senate that the measure was futile and inconsistent and inimical to the treaty of Versailles.

"The mountain has labored and brought forth a mouse," he said.

"The peace resolution is before us. It is not exactly still born, but its feeble character suggests a disturbed gestation and a dubious future."

"Great expectations for an act of congress that would force a peace settlement are to be disappointed. Hitchcock hopes that a resolution by congress could be made to perform the functions of a peace treaty are abandoned."

"Instead of a peace settlement to be forced by a resolution of mandators requirements is the price of severing commercial relations, we are merely to repeat the war declaration, declare the war at an end and invite the president to negotiate a separate peace."

Mr. Hitchcock cited three similar resolutions which he said had been sponsored since last November by Senator Lodge, of Massachusetts, the Republican leader and Senator Knox, of Pennsylvania, author of the pending resolution.

The latter, Mr. Hitchcock said, is the fifth peace resolution offered by the Republican leadership.

"In reaching this important conclusion," he said, "of the pending measure, the supporters of the November plan have staggered from side to side over a zigzag course for nearly six months."

Senator Hitchcock denied that congress has the power to make peace, although it has authority to declare war. The states voted unanimously against giving congress peace making jurisdiction, he said.

AIR MAIL SERVICE PROVES SUCCESS

WASHINGTON, D. C., May 12.—The government air mail service will celebrate its second birthday anniversary Saturday, the operations of the post-year having been marked with "phenomenal success," according to the postoffice department.

Statistics for the entire year show an average performance of 87 percent, including flights under most adverse conditions.

Postal airplanes in the last 12 months transported 538,000 pounds of mail matter 498,000 miles. The service was economical financially, as well as in time, the department announced, \$12,000 being saved on the Washington-New York route, and \$100,000 between New York and Chicago.

Palmer Fixes Margin Of Profits on Sugar For Wholesalers, Retailers

BOSTON, Mass., May 12.—Attorney General Palmer today set the margin of profit to be allowed on sales of sugar at one cent a pound for wholesalers and two cents a pound at retail. In a telegram to United States Attorney Thomas J. Boynton, the attorney general ordered that steps be taken to immediately prosecute persons taking larger profits.

This margin of profit was fixed by the sugar equalization board more than a year ago, but Assistant Attorney General Garvan said misunderstandings had arisen among fair price committees as to its application at the present time. To clear up the tangle district attorneys were instructed to rigidly enforce the ruling with respect to the margin of profit and to prosecute firms and individuals taking more than that amount per pound.

The attorney general's order will not have the effect of standardizing prices either at wholesale or retail, according to Mr. Boynton.

Dealers obtained their stocks at different prices and as a result prices will vary, but in no case can profits exceed the margin allowed.

WASHINGTON, D. C., May 12.—Telegrams were sent by the department of justice today to all United States attorneys reiterating the department's policy of holding the margin of profit on sugar sales to one cent for wholesalers and two cents for retailers.

Revolutionary Coup Complete In Mexico

EAGLE PASS, TEXAS, May 12.—Piedras Negras, the Mexican garrison town opposite Eagle Pass, was surrendered to the revolutionists at midnight last night. Not a shot was fired.

VERA CRUZ, May 12.—(By the Associated Press.)—President Carranza's army of four thousand men, virtually surrounded by rebel forces commanded by Generals Hill and Treviño, is making a determined stand in a strong position between San Marcos, Puebla and the village of Huamantla, ten miles northwest in the state of Tlaxcala, according to advices received here. The struggle went on all day today and according to the latest reports, the Carranza forces had not been dislodged.

Rebel reinforcements, under command of General Porras, have been ordered up from Cordoba, and have taken up positions at San Andres and Chichimila, southeast of the scene of today's battle, probably for the purpose of preventing the escape of Carranza, should he succeed in breaking through the lines thrown around him. Rebels states the Carranza forces are entrenched along the Mexican National Railroad.

General Cipriano Aguirre, son-in-law of President Carranza, and governor of the state of Vera Cruz, has abandoned all chance of escape from the country in an effort to join his superior and share in his fate, says a dispatch to El Dictamen. Immisseries from General Aguirre today conferred with General Sánchez, chief of staff, and asked that their commander be permitted to pass through the rebel lines toward San Marcos. This request was granted but it was stipulated General Aguirre must be accompanied only by his general staff and civilians, all of his soldiers being barred.

Paul H. Eoster, American consul here, has reported to the state department in Washington, that conditions are returning to normal, that the lives and property of foreigners large not been molested and that there is no reason for retaining United States warships in Mexican waters, where they may cause friction.

Felix Díaz, leader of a rebel group in the state of Vera Cruz, has asked permission to leave the country, promising he will take no further part in the movement in Mexico. It has been said his request would be granted.

Sen. Underwood Grounded Wins Nomination In Alabama

BIRMINGHAM, Ala., May 12.—Returns from yesterday's primary, gathered by the Birmingham Age-Herald from 50 out of 67 counties indicate the renomination of Senator Oscar W. Underwood to succeed himself, and a close three-cornered race for the seat of the late Senator Bankhead. (Opponent) Hefflin, Frank White and former Governor O'Neal are the contenders for the short term with the figures running very close.

Returns available so far show only the renomination of Representative Husbolt, of Birmingham, for his seat in the house of representatives.

The figures respecting the other nine congressional contests had not been gathered. According to the Age-Herald returns, Husbolt, the union labor candidate against Senator Underwood, developed unexpected strength in Underwood's home county, and in central and northern parts of the state.

Italian Cabinet Resigns

ROME, May 12.—The ministry of Rich Premier Nitti was the head, has resigned.

The decision to resign came when the chamber adopted by a vote of 162 to 112 a motion by the Socialists regarding posts and telegraphs. Senator Nitti called for a rejection of the motion and demanded that the balloting be considered a vote of confidence in the ministry. The popular party voted with the Socialists.

Transport Closes Harbor

WASHINGTON, D. C., May 12.—San Juan harbor has been closed by the grounding of the army transport Northern Pacific at its entrance, according to a radiogram received here from the Porto Rico port. The Northern Pacific was resting easily and it was expected that she would be floated.

General Pershing who was returned to the United States from Panama on the vessel, and other passengers were taken off yesterday.

This is the second time the Northern Pacific has been on the beach recently. She went around off Fire Island N. Y. in January, 1919, while bringing troops back from France.

House Shortage Is Blamed

DETROIT, Mich., May 12.—The housing situation in Detroit was held responsible today by Arthur B. Lederer, head of the attendance department of the board of education, for the withdrawal since April 1, of 2,880 children from the city's schools. Reports of teachers, Mr. Lederer said showed that a majority of the families were moving to other cities because of the house shortage and resultant high rents.

Import Rail Crews At Youngstown

YOUNGSTOWN, O., May 12.—Railroad crews imported by the Erie Railroad were today attacking freight congestion at ware houses and in mill yards in Youngstown, Sharon and New Castle, with normal operating conditions claimed by the railroad's regional headquarters here. The effect of the more on steel mill operations depends, it is said, on the conditions on connecting railroads over which fuel supplies are carried. The Erie announced its readiness to handle all off-loads of freight. Erie switchmen have been on strike for nearly five weeks, road crews for ten days and firemen for a week, about 600 men being affected. The other railroads entering in Youngstown all reported improved conditions today with more crews put to work in the industrial zones.

Bolsheviki Gain Upper Hand In The Near East

CONSTANTINOPLE, May 11.—(By the Associated Press)—Russian Bolshevik forces in Azerbaijan recently demanded that Armenia surrender Karabagh and permit them the liberty to cross freely from Armenia to Asiatic Turkey, where they intended to cooperate with Mustafa Kemal, leader of the Turkish nationalist movement. This demand was rejected by President Khatunian, but Soviet committees in Karabagh protested and mustered sufficient power to oust the Khatunian government.

While the Russian Bolsheviks in Azerbaijan are comparatively few in numbers, they have formed an organization which seems to be effective. While the republic of Georgia has so far resisted pressure from the Soviets, it is expected to surrender in a short time as it has oil supplies sufficient for only six weeks. Unless the Bolsheviks are checked by the Russians, the Polish and Ukrainian fronts, it seems inevitable that Georgia will succumb.

Turkish newspapers published in Anatolia disclose the fact that many agitators from Russia are at work in Mustafa Kemal's forces.

Figs Always in Demand. The first yield of the village of Alden, Turkey, has risen from approximately 8,000 tons raised on 10,000 acres of land about 30 years ago, to about 22,000 tons raised on 25,000 acres. However, this advance in supply has not kept pace with the demand, and prices of figs have steadily risen. The big producing areas are, under normal conditions, exclusively tapped by the Ottoman (Alden) Railway company's system. The orchards, located mainly in the Meander valley, are owned chiefly by Turks.

Famo Stops Seborrhea and Grows Healthy Hair

We ask you to put FAMO to the most exacting test. Have a member of your family examine your scalp before you start the use of FAMO. Apply FAMO daily for one month. Have your scalp examined again. If they do not report the growth of new hair, return the FAMO bottle to where you purchased it and you will receive your money back. FAMO DOES grow new hair luxuriantly if you will form the daily habit of applying it. It makes the hair fluffy and soft. FAMO intensifies a natural tendency to waveness and retards grayness. It contains no harmful alcohol to dry the scalp and produce gray hair. Every woman should use FAMO regularly. Its use is a daily habit you will enjoy. But not only does FAMO beautify the hair. FAMO kills the deadly seborrhea microbe which is the cause of dandruff. It stops all itching of the scalp and soothes and feeds the hair roots. It penetrates the scalp without massage and gives life and sheen to the hair.

FAMO was evolved by scientists in one of the recognized pharmaceutical laboratories of Detroit. Three years were spent in perfecting it before it was offered to the public. The ingredients in FAMO have never before been used on the head. But they have been well known in medical science for many years. They work differently from any other hair preparation. FAMO stands alone. If your hair is thin and lacks lustre and the dandruff scale causes constant irritation of the scalp, you should start the use of FAMO at once. It destroys the dandruff bacilli. FAMO is sold at all toilet goods counters in two sizes, 25 cents and \$1. The dollar bottle is extra large and contains four times as much as the smaller size. Applications of FAMO may be had at the better barber shops and hair dressing establishments. Seborrhea is the medical name for a scaly, itchy condition of the scalp. The seborrhea secretion forces its way into the hair and is commonly known as dandruff. From the laboratories of F. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Mich.

World Offers Vast Opportunities For American Enterprise

SAN FRANCISCO, May 12.—The economic rebirth of the civilized world offers vast opportunities for American enterprise. James A. Farrell, president of the United States Steel and Iron Corporation, and chairman of the Seventh Annual National Foreign Trade Convention told trade experts the world's fertile soil and cheap labor are entering upon a period of development. They will help supply the rapidly increasing needs for foodstuffs and raw material and they will at the same time furnish new markets for United States products.

Abnormal demand on American production during the war, he said, has been projected into the first years of peace because of the exhaustion of the world's reserve stocks. "We shall be confronted," he said, "in a quite unmistakable way with the fact that we are able to produce more than we can sell at home. We shall face such an emergency for foreign trade as we never before experienced. Either we shall find markets abroad for the surplus of our industrial productivity or we shall cease to produce it, which is quite unthinkable. That way lies stagnation, unemployment and business reverses.

"But the world offers vast opportunities for American enterprise. There can be no question about the fact that we are able to produce more than we can sell at home. We shall face such an emergency for foreign trade as we never before experienced. Either we shall find markets abroad for the surplus of our industrial productivity or we shall cease to produce it, which is quite unthinkable. WHERE'S EMELINE?

By AGNES G. BROGAN.

The girl looked about the old-fashioned room with the French windows she had admired as a child, opening out on wide verandas. Then she went to the piano and sorted over the music. The songs of a by-gone day, which she had expected to find, had given way surprisingly to new and rickety ballads. So Aunt Emeline also had become modernized in her taste for music. Sallie tossed her hat on a chair and placed her traveling bag beneath it, and began to play the one sentimental piece she could find. It was something about "Oh! I'm lonely," and "Oh, I'm blue," and carried a touching appeal. But as Sallie for the second time reached the chorus and was waiting softly, "Oh! I'm so lonely," a masculine voice nearby emphatically remarked:

"So am I."

And as Sallie, undecided whether to stop or to proceed, unsolicited with her song, finished "Oh! I'm blue," the young man again exclaimed:

"That's me, too. I've been sitting out there," he went on, as she turned on the stool, "wanting to curse everything in this dull town from the hard stand to the pump, when your musical voice expressed my feelings for me."

"My singing," Sallie demurely replied, "has never before been likened to cursing. But if it helped to relieve you—Will you tell me," she broke off abruptly, "where my Aunt Emeline is?"

"I'm afraid," the young man sadly answered, "that I cannot oblige. I wish that I might know—your Aunt Emeline."

"But if you don't know her," persisted the girl, "then why are you here?"

"I have been wondering that very thing about you."

Sallie turned from him coldly.

"I came to visit my Aunt Emeline," she replied, "but she seems not to be at home, while you—"

"I am very much at home," the man pleasantly interrupted.

Sallie stooped to pick up her bag. She would go in search of Aunt Emeline.

"Who are you?" the girl asked.

"I am James Oliver Lodge," he answered, "and I hope the name duly impresses you. Some people call me 'Jim.'"

"Tell me what," he suggested impulsively, "I'll get out the car and we will go and look for Aunt Emeline together. We'll try the shopping district first—just one short block. Bring your valise," he advised.

"Certainly not," Sallie answered promptly.

"I am going to stay right on in this house."

"Nothing would give me greater pleasure," Jim said cheerfully.

"You are funny!" Sallie exclaimed.

"Why should you be so pleased about it?"

"It is rather soon; I fear to tell you," he answered with a mischievous glance, and the girl sighed in exasperation.

Sallie ignored this levity. She felt that she had joked enough.

Under pretense of reading, she took a book from the table, and the young man obediently passed out through a French window to the veranda. On the fly-leaf of the book, Sallie read on inscription, "To James Oliver Lodge, from Dad."

The girl's pretty brows wrinkled in perplexity. This young man whom she had dismissed as a simpleton, yet here upon "her" table was "his" book—from dad.

"Come here," she called peremptorily, and the young man came.

"You don't know Aunt Emeline," she accused, "yet here is your book, upon her table."

"It is not her table," James Lodge retorted; "it's mine—my table, my house, my everything."

"Your home," Sallie murmured, "and you let me walk in and play your piano, and—"

"I didn't let you," Jim denied. "You came in yourself. When I heard the piano, I followed from the garden. When you asked for your Aunt Emeline, and I offered to take you out and try to locate her, you drove me," he ended tragically, "from my home."

"I arrived at the station this afternoon, and asked to be taken to the Orton place," Sallie carefully explained, "and the town driver brought me here, and left me at the door. I remember the house from childhood visits. When no one answered to my ring, I came in to wait for my aunt. If this is your home, then where's Aunt Emeline?"

"At her bungalow, no doubt," the young man answered briefly. "I will take you there. If you had mentioned the name Orton, I should have known at once. Dad has bought the old Orton bungalow—but if we live here for once it will always be 'Orton place' to the natives."

As he stood, Sallie's bag in his hand, James Oliver Lodge looked down into her face with laughing eyes.

"You expressed a determination not long since," he reminded her, "to stay right on in this house. I told you then that nothing would give me greater pleasure. However, we will take that subject up later. Please let me happen to be a favorite with Miss Orton."

And Sallie, smiling at his daring, blushed as she smiled.

"Calendar Banquet" Is Latest

On the night of May 27th there will be held in the basement of the Calvary Baptist church, Hutchins St. and Robinson avenue, a Calendar Banquet, an innovation in church entertainments in this city. It will provide most pleasing diversion and entertainment.

The number of diners will be limited to 144. The banquet tables will be arranged to represent the twelve months of the year, twelve tables being used, and twelve persons being seated at each table.

Each of the tables will be decorated to present the peculiar characteristics of the particular month it is supposed to represent.

PLASTER FALLS ON SLEEPER; HE TRIES TO JUMP THROUGH WINDOW; BADLY CUT

Believing that an explosion had taken place in the building and his life was endangered when the ceiling in his room fell early this morning and he was showered with plaster, E. J. Homan, piano player at the Eastland theatre, made an effort to jump through a window in his room over the Liberty Ready-To-Wear store on Chilton street. Arteries in both wrists were severed by shattered glass, his face was cut and his head hit a wall of small cuts the result of the plaster hitting him with considerable force. "I was sound asleep when the plaster fell and when I awakened half of my body was hanging out a window and I was covered with blood," Homan told a Times man who visited his room this morning. "I thought an explosion had taken place and in a half-dazed condition my first impulse to jump through a window was obeyed. I guess I got off lucky at that," Homan said as he lifted his bandaged wrist above his head. "I probably won't be laid up very long." Water seeping through from the roof soaked the plaster in his room and it fell with a crash and caused much damage to furnishings in the room.

Homan, whose home is in Toledo recently located here and is a clever pianist and has been winning favor with the clientele of the Eastland theatre by his renditions.

Hoosier G. O. P. In Convention

INDIANAPOLIS, IND., May 12—Republicans met here today in state convention during which delegates to the national convention in Chicago will be chosen. A complete state ticket nomination and a party platform adopted.

Preceding the opening of the two day convention, members of the state committee, selected in district meetings yesterday were to meet and elect a state chairman. Friends of Edmund M. Warnock, incumbent, were confident of his reelection. Today's session was to be devoted to speeches, including addresses by United States Senators James E. Watson, temporary chairman, and Harry S. New, permanent chairman; Will H. Hays, national chairman; Governor Goodrich and Mrs. John Glover South of Kentucky, chairman of the women's national Republican executive committee.

The real work of the convention will start tonight when the delegates meet by districts to name the convention committees and two delegates and two alternates for each district to the national convention.

The delegates at large to the national gathering will be chosen on the floor of the convention tomorrow. Mrs. Anna Stubbaker (widow of South Bend, a supporter of General Wood for the presidency) announced her candidacy for delegate at large yesterday, which means a contest for places on the delegation. The four others most prominently mentioned for the place are Governor Goodrich, Senators Watson and New and Mr. Warnock. As the primary did not give any residential candidate a majority a heated contest is expected over instructions.

Tin Miners Have Privileges.
The men who work in the Cornish tin mines are a class by themselves, and all their differences are adjusted by the statutory courts, as they are called from the Latin word *statum*, meaning that. These curious courts have existed in their present form since the middle of the thirteenth century, and, in a simpler form, much earlier, and the miners claim to be free from all other jurisdiction, "except in matters affecting the land, life or limb."

Lower California Cattle.
In addition to cattle, many excellent horses are raised in Lower California. Horses are easily bred. The faithful horse is the principal means of transportation except for a few tourists in La Brea, there are no other means of transport in the country. In the southern part there are numerous herds of game. The largest cattle ranch in the California comprises almost 100,000 acres.

Why Itch and Burn With Skin Diseases?

There is a Way to Get Rid of the Torturous Suffering.

You cannot boil water by applying the heat to the top of the vessel. You may possibly, after so long a time, succeed in making the water lukewarm, but it will never get hot enough to boil. Disorders which originate in the blood can be reached only through the blood, and no amount of local treatment applied to the surface can be expected to do any real good.

The same principle applies to the attempt to get rid of skin diseases by local applications of salves, ointments, lotions, washes, etc., remedies applied to the surface of the skin, which can have no real corrective effect whatever upon the disease. Water cannot be boiled until every atom has been thoroughly saturated with intense heat, which can be accomplished only by applying it in the proper way.

So, also, there is a proper way to successfully treat and get rid of diseases of the skin, and that is by getting in behind the millions of tiny germs that cause the disorders, and eliminate them from the blood, thus going direct to the source of the trouble, and attacking them at the starting point.

Those who rely upon local treatment such as ointments, salves, lotions, washes, etc., which are applied to the surface of the skin, will never be free from agonizing skin diseases, because they are only about the treatment just backwash. They are treating the results of the disorder, and not the disease itself. They are attempting to boil water by applying the heat in the wrong place. These terrifying skin irritations, eczema, leprosy, boils, pimples, etc., have their origin in a tainted blood.

There is no danger of ever being afflicted with skin diseases as long as the blood is in perfect condition. It is only logical, therefore, that the proper treatment for pimples, blotches, sores, boils, rough red scaly skin is to purify the blood of the tiny germs that cause these disorders.

When any of these symptoms appear on any part of your body, you should take prompt steps to rid the blood of the germs which cause them. And the one remedy which has no equal as a blood cleanser is S. S. S., the purely vegetable blood remedy which has been on the market for more than fifty years. S. S. S. is sold by druggists everywhere.

Do not expect to be cured of any form of skin disease by the use of lotions, salves, ointments or other local treatment, as such remedies cannot possibly reach the source of the trouble, which is the blood.

The recognized blood purifier and tonic is S. S. S., which has been used for more than fifty years, and is today, more popular than ever. Begin taking S. S. S. today, and write a complete history of your case to our Chief Medical Adviser, who will give you special instructions without charge. NEAR DEATH TWO YEARS BUT NOW BACK AT WORK

"For two years I suffered with indigestion," says Fred Baker, Electrician of Charleston, W. Va. "Food would ferment in my stomach causing severe pains and at one time I swelled so badly that I turned a red of underclothes. Doctors told me I had indigestion but the medicine they gave me made me worse. They desired I would drop dead while working and I finally had to quit. One day I read in a paper of Dr. Parke's Treatment for Indigestion and Constipation. The first box relieved the pain around my heart, and gave me back to work feeling fine. This wonderful treatment will do as much for you. Get a box from your druggist—if it fails to please, your \$1.00 will be refunded."

QUICK RELIEF FROM CONSTIPATION
Get Dr. Edwards' Olive Tablets
That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and colored 60 years ago, discovered the formula for Olive Tablets while treating patients for chronic constipation and liver troubles. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "remedy" of these little sugar-coated, olive-colored tablets. They cleanse the bowels and give to the system a new vigor. They never force them to unnatural action. If you have a "dark brown mouth," bad breath, a dull, tired feeling, sick headache, tired liver—constipation, you'll find quick, sure and pleasant relief from one or two of Dr. Edwards' Olive Tablets at bedtime. They guarantee them every night to keep right. Try them. You'll see.

Windmills are not used in any great extent in Mexico, because the "norther" blow them over. It is thought that a windmill of low construction with a wide base would overcome this and might prove very popular.

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Warner.

Onalaska, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die and I was not regular either. I suffered for a year and was unable to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and I can do my housework without any trouble at all. I will always praise your medicine as I do not believe there is a doctor that can do as much good in female weakness, and you may use these facts as a testimonial."—Mrs. L. E. Warner, R. 1, Box 69, Onalaska, Wis.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

"Makes Cooking Easy"

Think Of The Steps It Would Save You

The GOLD MEDAL GLENWOOD Range, has a coal oven and a gas oven, which may be used separately or at the same time.

The GOLD MEDAL GLENWOOD is only four feet long. It is ideal for the modern kitchen.

If you should receive word this morning that company would come by evening, and you wished to prepare various dishes, you would want ovens that you could depend upon. You would also want a cooking top large enough to take care of all the utensils required in preparing a top-class meal.

Think of the steps the GOLD MEDAL GLENWOOD will save you. Instead of baking one thing at a time, it will bake your bread in your coal oven and your pastry in your gas oven. All of your baking will be out of the way at one time.

You could use nine large cooking and broiling utensils at the same time and you would have a range good for the next twenty years.

Woman Was "Some Thief"

After a woman, who is said to live on the Boulevard, had stolen a hat valued at \$20 in The Anderson Bros. store Wednesday afternoon, she went to the Winter shoe store, where she stole five pairs of shoes, which she had concealed in her shopping bag. Hardly had the shoes been placed in the woman's handbag than H. H. Winter detected what was going on. He stopped today that she promptly confessed to stealing the shoes in his store, a hat valued at \$20, which she was wearing, and admitted she had stolen in the Anderson store, and several pieces of drygoods from the Portsmouth Drygoods Company. "The woman told me point blank that she had stolen these articles, and she returned them, and then I let her go after getting her name and address," Henry H. Winter of the Winter store, said today. "I called her home and learned that she told the truth when she said she lived on the Boulevard. I acquainted W. W. Anderson of the Anderson store with the facts in the case and we may later on file charges against the woman, who has no excuse for stealing," Mr. Winter said today.

For the woman who is weary dreary and sad

A woman on her feet all day very often has headache, dizzy feelings at times, and pains here or there. If she will listen to what her neighbors say, and to the women who have had the experience, she will go to the nearest drug store and obtain a bottle of Dr. Pierce's Favorite Prescription. This is just the womanly tonic she needs periodically, and many are the women who express themselves as deeply indebted to Dr. Pierce for this wonderful discovery. It is an herbal nerve tonic which strengthens the weak woman and overcomes many of those diseases which cause headache, dizzy feelings, sometimes fainting spells, and those distressing pains and bearing down feelings. Read what this woman says:

DAYTON, OHIO.—"I found Doctor Pierce's Favorite Prescription a most excellent tonic. I had become all run-down, weak and nervous, could not eat or sleep well, and lost in weight. Was tired all the time, with the least bit of exertion I would be all in. I was advised to take the 'Favorite Prescription,' which I did, and I was very well satisfied with the results. My strength soon returned, I could eat and sleep well, the nervousness left me and my health was better in every way."—Mrs. ELLEN DRAPER, No. 47 Bolton Street.

Doctor Pierce's Favorite Prescription is a non-alcoholic remedy, either in liquid or tablet form. All druggists. Send Doctor Pierce's Invalids' Hotel in Buffalo, N. Y., 10 cents for large trial package.

FORTUNES IN RUBBER!

Industry has been revolutionized by the great war. The world demands greater production and better quality products, and is willing to pay almost any price to procure them. There is no other country so fitted to fill the demands of trade as America—but we must have more and larger factories in order to increase the supply of finished products. To build factories requires capital and as the banks are already doing all that they can for industry we must go to the people for finance and pay a liberal price for it.

A HARVEST FOR INVESTORS

The world war which worked so many other great changes, brought about an increase in the investor class from a few hundred thousand to several millions in number. People who never knew what thrift was are now fortunate owners of Liberty Bonds and other securities. They now have an opportunity of subscribing to a stock that may properly be described as of phenomenal promise. They can now buy it at a price that allows them to secure ten, twenty or thirty shares for a relatively small outlay and they have the prospect of seeing their investment increased in value as other rubber stocks have done until it is worth many times the original investment.

Agencies for the sale of Chilco tires and tubes have already been established in the following places and other territories are now being rapidly opened.

Chillicothe

Brooklyn
Louisville, Ky.

Akron, Ohio
Youngstown, Ohio

Ironton, Ohio
Circleville, Ohio

Further finance is of course necessary to assure a future to the tire industry. This is needed for new sales and service depots, fabrics, rubber stock, advertising, running expenses, etc.

Fortunes Have Been Made By Foresighted Investors In New Enterprises

They "GOT IN ON THE GROUND FLOOR" while others looked on and feared the outcome. It is almost impossible to trace the enormous profits received on the dollar of the original investor in the following inventions. Here are a few of the available figures that are reliable as far as we are able to ascertain:

NO NEW COMPANY CAN BE GUARANTEED OF SUCCESS

You can get 4 per cent. in savings banks or in government bonds. At the same time they do not offer opportunities in such enormous profits as are frequently made by investors in new manufacturing enterprises, the following examples speak for themselves.

Stock Is Now Selling at \$25 Per Share

Approximately 4,500,000 automobiles are now wearing out tires and blowing up tubes throughout the United States and hundreds of thousands of new cars are being placed upon the road annually. All these cars require constant replacement of tires and tubes and the new cars require four or five new tires each.

Consider what this means to stockholders in tire companies and you will realize why such enormous fortunes have been made in the tire manufacturing business and why the prospects of making even bigger fortunes in the future are so sure.

The Mohawk Rubber Company was established in 1913 with shares at a par value of \$100.00. Today the market value is \$1,500.00 per share. All these profits were made inside of 5 years.

Mr. H. B. Bixler, who is consulting engineer of the Mohawk Rubber Company, is also consulting engineer of the CHILICOTHE TIRE AND RUBBER COMPANY. Mr. Bixler feels sure that the CHILICOTHE TIRE AND RUBBER COMPANY will be one of the gigantic success of the rubber industry, for it is unexcelled in railroad and other transportation facilities and highly skilled labor can be obtained at wages that compare most favorably with other towns.

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

Most people do not realize the alarming increase and remarkable prevalence of kidney diseases. While the number of cases is more than fifteen times as great as twenty years ago, the diseases that prevail, they are almost all but recognized by patients who usually content themselves with doctoring the effects, with the original disease constantly undermining the system.

Weak kidneys may cause lumbago, rheumatism, colic of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, as time passes you may have a sallow complexion, puffiness of the face, dark circles under the eyes, and you will feel as though you had a heavy load on your back. If you have kidney trouble, may have plenty of ambition but no power to accomplish it.

If such conditions are present, continue, serious results will follow: Kidney Trouble may take many forms may steal upon you, or you may find that your kidneys are the cause of your sickness or weakness. If you find this, begin taking Dr. Williams' Pink Pills for Pale People, the famous kidney and bladder medicine, because as your kidneys are well, you will be able to carry on your life.

If you are already afflicted with Swamp-Heat, or other tropical fever, or the regular use of the small size bottles of all these pills, don't make any mistake for the name, Dr. Williams' Pink Pills for Pale People, and the address, Birmingham, N. Y., which you will find on every

Peculiar Accident
Mrs. S. O. H. Callahan wife of the senior member of the firm of Callahan and Motz dealers in hardware, met with a peculiar accident this afternoon. She stepped inadvertently on a box, and that caused her hands to fly up and strike her glasses. A box broke and hit her in the eye, but she broke away from the box and the weight was not injurious.

The Wilkins Divorce
Mrs. Ethel May Wilkins has filed her petition for divorce from Rev. Stanley E. Wilkins on the grounds of lasciviousness. John Robbins is her Attorney. The House of Quality

MATCHLESS MAY SALE

BEGINS TOMORROW AND WILL CONTINUE THROUGHOUT THE MONTH

IF "money talks" and "prices speak for themselves," there's very little in the way of supplementary conversation need indulge in as regards this sale—for the prices shout its message of economy. We might add a pertinent word about quality. But then that's a foregone conclusion, after forty-seven years of "Quality Plus Economy" events, so why waste words? Besides, the proof of any sale is in the seeing, so be on hand tomorrow, whether you come in inquisitive or acquisitive mood. But come. Let the yellow signs be your guide to matchless values.

The Markets

NEW YORK STOCKS

NEW YORK, May 12.—The market for money, as indicated by yesterday's 10 percent rate for call money, accounted for the further closing of prices at the latest opening of today's stock market. Independent steel, sugar and low grade oils were moderately higher, but motors, equipment and shipbuilding again tended downward. Pressure was directed against Studebaker, American car and Atlantic Gulf in which early losses extended to a point. Dealings in rails were held at nominal changes.

Shipping, especially Pacific Mail and Atlantic Gulf, led the market to higher levels the first hour. This notably resulted in a response to a moderate rise in the list began to sag when steel, motors, leather and textiles became the center of another selling movement.

American Woolen lost almost four points and reactions of 1 to 3 points accompanied light offerings on other industries and specialties. Out of town buyers dealing with the motor and allied trades were not encountering and the market situation provoked further liquidation. Signs of higher energy were foreshadowed by the eight percent opening rate for demand transactions.

Contractive credits and reports indicating a slowing down of various phases of industry gave impetus to further price depreciation in today's dull and professional stock market. Sales approximated 550,000 shares.

The closing was heavy.

CHICAGO GRAIN AND PROVISIONS

CHICAGO, May 12.—Fresh strength developed in the corn market today and the highest prices yet this season were recorded by the May delivery. Opening quotations which ranged from 1 1/2 cent decline to 1/2 cent gain, with July 1 1/2 to 1 3/4, and September 1 1/2 to 1 3/4, were followed by material upticks all around and then something of a setback.

The close was unsettled 1 1/2 to 2 1/2, not higher, with July 1 1/2 to 1 3/4, and September 1 1/2 to 1 3/4. Oats were governed by the reaction of corn. After opening unchanged to 1/2 cent higher, including July at 93 1/2 to 94 1/2, the market contained firm. Provisional harvested a little with grain and hogs. Demanded, though was inactive.

OBITUARY

Mrs. Henry Gleim

Mrs. Henry Gleim, wife of Henry Gleim of 2001 Elmwood avenue died at her home Tuesday evening at 5:20 o'clock. She was born at Bloomington, Ill., on October 27, 1856, where she spent most of her life until she and her husband moved to this city a little more than two years ago. Two boys were born to them, one preceding his mother in death.

Mrs. Gleim was a member of the First Evangelical church and a faithful attendant as long as her health permitted. She was known for her many kind deeds and her noble character.

She is survived by her husband, one son Wilbur, two sisters, Mrs. C. T. Dattel of South Webster and Mrs. Geo. W. Rose of this city and other relatives and friends.

Funeral services are to be held at the home at 7:30 (new time) on Thursday evening and at South Webster (Evangelical church) at two o'clock (old time) on Friday, Rev. S. Lindemeyer officiating.

Winkel To Occupy New Room

A. Winkel, proprietor of the Winkel Bargain Store, located in the Bannock Block on Galia street, stated this afternoon that July 1 he would occupy the "Clemens" property at 310 Galia street in which is now located the Blue Triangle.

Mr. Winkel has secured a five year lease on the room. The Blue Triangle is already seeking a new location.

Use of Rice Ground to Increase. The comparatively low cost of rice has made it the staple article of food in Asiatic countries. Rice is also extensively used in all other parts of the world, as it is easily transported and can be held for a considerable period without deteriorating. There is no doubt that its consumption will materially increase with the dissemination of knowledge regarding the variety of palatable ways in which it may be prepared in the best of the most fastidious. — S. G. Herr, in Grace 1-2.

Nature's Wise Supervision. The part important played by the weather as a means of preventing the too rapid development of the plant life of the world can be realized only when we consider the vast number of seeds produced. If conditions of the atmosphere favored a more even temperature all over the earth, as was probably the condition in the early history of the planet, there would be fewer varieties of plant life, because the more rapidly producing plants would crowd out the others.

Red Squirrels. The red squirrels are found most abundantly in woods of chestnut, hemlock or oak trees. These little squirrels do not lay up big stores of food as some of the other varieties. In summer time they make excursions to the fields and orchards. Apple seeds are a favorite delicacy.

Largest Known Potato. The department of agriculture says that the weight of the largest potato recorded in its office is between seven and eight pounds. There may have been larger ones produced, but the department has no record of it.

NOW MUCH OF YOUR ENERGY IS USED IN SEEING?
 Pretty hard to say. It depends almost altogether upon what condition your eyes are in. If you have an error of vision which is not corrected with glasses, the energy required to overcome it may be excessive. It may be depriving other parts of the body of their supply, and be the cause of headaches and other functional disorders. Get back to first principles, and let us tell you about your eyes.

THE RIGHT SORT OF TALK

THE German minister to France has returned from a brief visit to his own capital and returned cheerful and optimistic. He asserts that in the short time that has elapsed since his first advent in Paris, there had been a perceptible change, in fact, a distinct change, in the situation in his country. Industry has a wider activity, their railroads have materially improved their rolling stock and are moving more freight, while the coal production has increased remarkably.

Best of all, however, is the statement of the minister that the times are more orderly and the people more hopeful and content, coupled with the attitude of the minister himself, which is undoubtedly that of his country. The long spell of complaining, dilly-dallying and dodging seems brought to an end and there is a disposition shown to accept facts and conditions as written by cannon and peace terms and comply with them promptly.

It was never to be supposed that the German people would commit themselves forever to disturbance and ill-will. Order and industry, coupled to a large degree with thrift and frugality, is engrained in their nature. Naturally the war and its tremendously disappointing and costly climax created widespread uneasiness and some time was needed for adjustment. The period was protracted to an unnecessary and irritating extreme, but now, having passed its crest, the world can look to see the nation rapidly rise to substantial standing, not in extent and character like that of old, because the nation has been shorn forever of much of its domain and power and has been inhibited from maintaining an enormous standing army, which latter bred the intolerant militaristic spirit, which in the end led to downfall, but still a nation to be respected and reckoned with in the trade and commerce of the world.

WORSE THAN WE THOUGHT

At the announcement that the Democratic national convention would be held in San Francisco we surmised a very foolish act had been perpetrated. Now we know it was.

Attending to the convention is going to be at the greatest possible cost because the place of holding is clear across the continent, and the greatest number of delegates and visitors will have to travel the greatest distance and be gone the greatest length of time.

Worse than that the wire service to San Francisco is one of the smallest to the larger cities and special lines will not be possible to any considerable part of the newspapers, so the service is going to be largely confined to the plain and unembellished reports of the press associations.

The crowding absurdity of all, from our standpoint, is the difference in time in San Francisco and the East. The convention will meet not sooner than ten o'clock of mornings. With the four hours slower than eastern time this means that afternoon newspapers from Kansas City to the Atlantic ocean, can carry for the day but meager reports of the proceedings. More than twice as many people read the afternoon papers as read the morning, so the proceedings for the day will not be carried to two-thirds of the population half as rapidly as they are entitled to have it.

NOT TOO GOOD TO BE TRUE

ACCORDING to press reports Carranza is not putting up any fight to maintain his power and the revolution is sweeping and conquering the whole of Mexico practically without bloodshed, is becoming so popular and supreme that even the redoubtable Pancho Villa has turned over his army to it and himself retired to a hacienda to spend his life in peace.

It seems as farfetched and improbable as the fantasies of an opera bouffe, but Mexico is a strange land and strange things, all together out of imagination are likely to happen therein.

Would it were true anyway and peace and security might come to that unhappy land after so many years of turmoil and suffering. It would be out of the usual course for Mexico, but then, as has just been said, she is a strange land. Mightily has she been blessed in the elements of material wealth but scantily has she profited thereof. But an all-wise Providence has planted wealth there for some purpose, the good of its creatures, and in this good time will that be made manifest. Pray that now be the time at hand.

The British press is not at all pleased at the message a batch of American congressmen sent over to their government on the matter of Ireland. Nothing strange about that. The outsider, to matter how worthy and laudable may be his motives, is seldom received graciously in poking his nose into other family affairs.

Can't lead 'em in everything, but that philosophy doesn't take away altogether the sting of having our budding brains beaten twice in one evening and that on both sides of the question.

New-York - Day - By - Day

BY O. O. MCINTYRE

NEW YORK, May 12—

It was at one of those

Afternoon tea affairs.

And any man who falls

For that kind of bunk.

Discovers a room and bath.

In the Hall of Fame.

There are some girls.

Who date on Freud.

And some sleek young men.

In tight fitting clothes.

And there was I in a suit.

That looked as if it was.

Made by Omar the Tentmaker.

And they got to talking.

About their strokes in golf.

And one young thing asked me.

What I went around in.

And I told her.

In a pair of white pants.

And a sweater mostly.

And she looked shocked.

And I trust she was.

And then they gave me a cup.

And two little cakes.

And a lady came around.

And poured tea in the cup.

And while I stood there.

Someone asked me a question.

And everybody stopped talking.

And I started to answer.

And my voice squeaked.

Like the needle was scratching.

And I tried a snappy remark.

But they were all just over.

From England or something.

And it was a stupid affair.

Until a girl told the host.

He reminded her of Bryan.

And he said he might.

Look like Bryan.

But his heart was in New Jersey.

And then the party started.

And there were ten flasks.

Reinforced from the hip.

In that many seconds.

And the way they drank it.

One would get the idea.

That this was a free country.

But I'm a teetotaler.

And I had to stick to tea.

And I drank so much.

That when I left.

I told the host.

Goodbye in Japanese.

The DIARY OF AN ENGAGED GIRL

By the author of "The Diary of a Girl"

THE END OF A PERFECT DAY

What a time we had. We danced our heads off, and sang the old songs. It was every bit as thrilling as being at some dance in Greenwich village. I can assure you, Johnny and I remained mostly alone all day when we wanted all and any queer cafes that we could possibly find, and reared at the memory of some of our wildest escapades. The only time that his face dropped was when I announced my engagement to him.

"Aw, Lindsay, I had always thought that you at least would be the one of the crowd to remain true to Art and Life," says he early. I answered that I expected to remain ever true to both of these. My old loves, but circumstances had made it imperative to be true to myself first. I don't think that he got me at all. His eyes were quite dull for a long time after. "That's the old Lindsay," he said, giving me a hug of approval. "Lord, but it's good to know that you are still one of us, in spite of it."

All considered, it was a glorious evening. And by the time that we realized that there was a train to catch for most of us, we parted in the good old way, racing each other all along Chestnut street as far as the Broad street station, where we bunched each other farewell as we bunched ourselves to our various trains.

I was to spend the night with Greeny, so we found ourselves final

ly on the last train to Marion, tired, but finally happy.

Greeny has the sweetest little house all to herself, not far from the station, and we walked along in the moonlight to the house, enjoying every step of the way. It was a glorious mid-summer's night and our perfect communion was unbroken, until just as we came to the front gate the air was rent by the wails of Greeny's daughter, Elsie Jane. She certainly has a good pair of lungs, that child. In a moment Greeny was transformed into a mother, and fairly flew in, and up the stairs to quiet her offspring.

I followed more soberly, and managed to knock over a stool in the hall, which in turn seemed to irritate Elsie Jane to redoubled efforts in howling. I sat me down on the bottom step and waited for orders to be restored, and after a long wait Greeny reappeared bearing, and somewhat short of breath from her exertions.

Elizabeth—that's her real name, Elizabeth Green, Green's a nickname she married to Harry White, and "Whitey," as we call him, is in New York at present studying. Unconsciously she is alone save for a aunt of hers, who lives in one of the rooms upstairs, and leaves Greeny pretty much to her own devices, probably because she is deaf.

Greeny was and is one of the most promising artists that I know, and yet she told me that for two years she has hardly touched a brush. I call it scandalous. She calls it maternity. He that says it may, I took her sternly to account for not lifting the two a bit, especially now that she is practically free. No Whitey to look for or anything. Of course she told me that she would start in to work again, eventually, and loved her work more than ever, but I am skeptical. That girl is an artist at

CONGRESSMAN HUSTED

Friends of Representative James W. Husted of Peckskill, N. Y., have launched a campaign that they hope will result in obtaining for Republican nomination for governor of the Empire State this year.

The congressman is especially fitted for the office, his followers say, because of his successful career in Washington and his wide experience as a lawyer and a business man. His high standing in the lower house is indicated by the fact that he was recently named chairman of the house sub-committee that is

Mr. Husted's ancestors came to America in 1620 and settled not far from where he was born in Peckskill, in the old Cortlandt town. He was graduated from Yale and after attaining his majority was elected to the New York assembly. He is a close student of constitutional law and is credited also with being well versed in bookkeeping, as he is president of the Peckskill National bank. He is the head of several corporations.

Republicans throughout New York state are showing considerable interest in the Husted boom and it is scheduled for consideration at conferences of leaders in the next few weeks.

Strength For Today

Strength for today is all that we need. As there never will be a tomorrow. For tomorrow will prove but another today.

With its measure of joy and sorrow.

Then why forecast the trials of life

With such sad and grave persistence.

And watch and wait for a crowd of ill

That as yet have no existence?

TO DAY

With every rising of the sun

Think of your life as just begun.

The past has cancelled and lurled deep

All yesterday's. There let them sleep.

Concern yourself with but Today.

Grasp it and teach it to obey

Your will and plan. Since time began.

Today has been the friend of man.

Yours and Today's. A soul sublime

And the great heritage of time.

With that himself to bind the world,

Go forth, leave heart! Attain! Attain!

BILLY WILKERS

FRANCES TREGO MONTGOMERY

The kids wandered around "Con-stantinople" for days, having many half-breads escapes, often cold and hungry, until one day they came out by chance upon the wharf where they had landed, and saw lying at the dock a large sailing vessel being loaded with Turkish rugs.

As they had done once before, they watched their chance and went on board, where they lay down behind a pile of rugs, and were not noticed until the vessel had sailed away, and Constantinople, with its beautiful white minarets and dirty streets was a thing of the past.

So much for the cargo of the vessel. Now for the captain and crew. Like all other vessels they had been on, they were treated well, but fed on beans, salt pork and hard tack because there was nothing else. The goats, like ostriches, can eat anything without hurting them, so they did not mind in the least and got fat on their queer fare.

After weeks of sailing in good weather and had, they heard the captain say, "In three days we shall sight Boston," but he had not counted, however, on being "beached" by a terrific gale which blew them where they were not where, and left them rolling in a high sea surrounded by a fog so thick you could not see your hand before your face. They had to keep up right and day that dismal tooting of the fog horn, until Day said if they blew in another time she would jump overboard and drown herself, and Night said he would do better than that—he would hit the man over that was blowing it. But just at this point the fog began to raise. First you could see the end of the ship, then a little way out to sea, and then their eyes deceived them—land! Yes, glorious, beautiful land, with green grass and trees on it!

(The kids hear good news tomorrow.)

Odessa Taken By The Poles

JAP EMPEROR'S SON IN TRAINING TO LEAD FORCES

CONSTANTINOPLE, May 12.—The Russian embassy here has received a report that the Poles and Ukrainians have captured Odessa, the most important city and seaport of southern Russia on the Black Sea.

WARSAW, May 12.—(By the Associated Press)—Polish and Ukrainian forces have struck a mighty blow at Kiev and have driven the enemy back along the Dnieper river. Belytsa, an important Dnieper river crossing, has been captured, and serious fighting has been inflicted on the Soviet army. Fighting is now going on over a front of approximately 120 miles.

Necessity of strengthening the Polish line after the capture of Kiev, is said to have led to the new offensive, which extends from almost directly west of Vitebsk to below Kiev on the Dnieper. Polish forces have crossed the Berezina river at several points and have taken Wladyslaw after heavy fighting.

Hoosier G. O. P. In Convention

INDIANAPOLIS, Ind., May 12.—Republicans met here today in state convention during which delegates to the national convention in Chicago will be chosen a complete state ticket nominated and a party platform adopted.

Preceding the opening of the two day convention, members of the state committee, selected in district meetings yesterday were to meet and elect a state chairman. Friends of Edmund M. Wasmuth, incumbent, were confident of his reelection. Today's session was devoted to speeches, including addresses by United States Senators James E. Watson, temporary chairman, and Harry S. New, permanent chairman; Will H. Hays, national chairman; Governor Goodrich and Mrs. John Glover Smith of Kentucky, chairman of the women's national Republican executive committee.

The real work of the convention will start tonight when the delegates meet by districts to name the convention committee and two delegates, and two alternates for each district to the national convention.

The delegates at large to the national gathering will be chosen on the floor of the convention tomorrow. Mrs. Anna Stedebaker Carlisle of South Bend, a supporter of General Wood for the presidency announced her candidacy for delegate at large yesterday, which means a contest for places on the delegation. The four others most prominently mentioned for the place are Governor Goodrich, Senators Watson and New and Mr. Wasmuth. As the primary did not give any residential candidate a majority a heated contest is expected over instructions.

HOW ROBBERS AND RECKLESS DRIVERS ARE PUNISHED IN CHINA

Line of criminals, with wooden block collars, in Tien-Tsin, China.

China continues to use the century-old but very effective means of punishing criminals by forcing them to stand in the streets with

huge wooden "collars" on their necks. On these collars are posted the names of the crimes for which the wearers are being pun-

ished. Auto speeders, highway robbers, political offenders and wife-beaters are among those so punished.

UNDERWOOD ASSURED OF NOMINATION

BIRMINGHAM, Ala., May 12.—Although nomination was slow because of the length of the ballot and the fact both first and second choice votes were cast, according to returns from yesterday's state-wide Democratic primary, as compiled early today by the Birmingham Age Herald, Senator Oscar W. Underwood was assured of the nomination to succeed himself. In the four-cornered race for the short term senatorship, the vacancy created by the death of Senator Tankhead, Representative J. Thomas Heflin and Captain Frank White were close competitors, unofficial returns said. These returns came from only about 40

Italian Cabinet Resigns

ROME, May 12.—The ministry of which Premier Nitti was the head, has resigned.

The decision to resign came when the chamber adopted by a vote of 195 to 112 a motion by the Socialists regarding posts and telegraphs. Signor Nitti called for a rejection of the motion and demanded that the balloting be considered a vote of confidence in the ministry. The popular party voted with the Socialists.

To Postpone Spa Conference

BERLIN, May 12.—Decision to postpone the conference between allied and German representatives at Spa, Belgium, until late in June, has been reached, according to Deutsche Allgemeine Zeitung. The meeting was to have been held on May 25.

Bolsheviki Gain Upper Hand In The Near East

CONSTANTINOPLE, May 11.—(By the Associated Press)—Russian Bolshevik forces in Azerbaijan recently demanded that Armenia surrender Karabagh and permit them the liberty to cross freely from Armenia to Asiatic Turkey, where they intended to cooperate with Mustafa Kemal, leader of the Turkish nationalist movement. This demand was rejected by President Khatrian, but Soviet committees in Erivan protested and mustered sufficient power to oust the Khatrian government.

While the Russian Bolsheviks in Azerbaijan are comparatively few in numbers, they have formed an organization which seems to be effective. While the republic of Georgia has so far resisted pressure from the Soviets, it is expected to surrender in a short time as it has oil supplies sufficient for only six weeks. Unless the Bolsheviks are checked by the reverses suffered on the Polish and Ukrainian fronts, it seems inevitable that Georgia will succumb.

Turkish newspapers published in Anatolia disclose the fact that many agitators from Russia are at work in Mustafa Kemal's forces.

NEW YORK—Ambition to die poor because "it is a disgrace to die rich," expressed by Nathan Strauss, retired millionaire.

Delegates Are Appointed To Educational Conference

COLUMBUS, O., May 12.—Governor Cox today appointed delegates to the educational conference called by Secretary Lamm, of the interior department, at Washington May 19 to 21, to discuss the emergency arising from the shortage of teachers. Besides the state superintendent of public instruction and the members of the state board of education, the list includes the following: Joseph G. Butler, Jr., Miss Allie M. Hines, Mrs. T. J. Bray, Henry A. Ball, Andrew O. Fleming, Rev. F. M. Bennett, and J. M. Hanson, all of Youngstown; Frank D. Slutz, C. E. Kettering, Mrs. Charlotte Reese Conner and J. C. Haswell, all of Dayton; Mr. Henry C. Koch, Attorney Albert Morrill, Samuel Ash, Attorney Alfred Hartman, Sidney Fritz, Laura E. Logan, Miss Edith M. Campbell, Mrs. Guy Mallon, Edwin C. Gibbs, and Ralph David Phillips, all of Cincinnati; Paul Bellamy, of Cleveland; H. H. Timken, Canton; William Gutman and John J. Quinn, of Toledo.

MYSTERIOUS MURDER IS BAFFLING CHICAGO

CHICAGO, May 12.—The murder of James "Big Jim" Collins, proprietor of a restaurant famous in Chicago's night life and patron of music, remained a mystery today, despite examination of probably a score of suspects. Collins was killed near the entrance to his cafe late yesterday by a person who escaped apparently unseen. He usually was attended by a bodyguard, the police said, and a pistol was found in his pocket.

At least four theories were advanced by the police: That relatives of friends of his former wife, recently divorced, were involved; that Collins was a "black hand" victim; that his death marked a step in the labor and gunning war started with the murder of Maurice "Boss" Enright; or that one of his many known enemies made during Collins's rise from railroad track laborer to wealthy political and tenebrous leader, was responsible.

The first person to be questioned after the shooting was Mrs. Dale Winter Collins, his young bride, formerly a singer at the restaurant. She was at home when her husband was shot, the police said.

Import Rail Crews At Youngstown

YOUNGSTOWN, O., May 12.—Railroad crews imported by the Erie Railroad were today attacking freight congestion at ware houses and in mill yards in Youngstown, Sharon and New Castle, with normal operating conditions claimed by the railroad's regional headquarters here. The effect of the move on steel mill operations depends, it is said, on the conditions on connecting railroads over which fuel supplies are carried. The Erie announced its readiness to handle all offerings of freight. Erie switchmen have been on strike for nearly five weeks, road crews for ten days and firemen for a week, about 500 men being affected. The other railroads entering in Youngstown all reported improved conditions today with more crews put to work in the industrial zone.

REVOLUTIONARY COUP COMPLETE IN MEXICO

VERA CRUZ, May 12.—(By the Associated Press)—President Carranza's army of four thousand men, virtually surrounded by rebel forces commanded by Generals Hill and Trevino, is making a determined stand in a strong position between San Marcos, Puebla and the village of Huamantla, ten miles northwest in the state of Tlaxcala, according to advices received here. The struggle went on all day today and according to the latest reports, the Carranza forces had not been dislodged.

At least four theories were advanced by the police: That relatives of friends of his former wife, recently divorced, were involved; that Collins was a "black hand" victim; that his death marked a step in the labor and gunning war started with the murder of Maurice "Boss" Enright; or that one of his many known enemies made during Collins's rise from railroad track laborer to wealthy political and tenebrous leader, was responsible.

BONDS CANNOT BE SOLD AT A HIGHER RATE

COLUMBUS, O., May 11.—Bonds for road improvements for which proceedings were begun before the law increasing the interest rate from five to six per cent was enacted last February, cannot be sold at the higher rate, the state supreme court ruled today. It refused to issue a writ of mandamus to compel Auditor Zant, of Cuyahoga county to certify increased interest rate.

To sell the bonds at six percent the proceedings must have been started subsequent to the taking effect of the amendment, the court held. The legislature authorized the increased interest rate in order to expedite the sale of highway bonds. Many counties will be affected by the decision, it is said.

House Shortage Is Blamed

DETROIT, Mich., May 12.—The housing situation in Detroit was held responsible today by Arthur F. Levee, head of the attendance department of the board of education for the withdrawal since April 1, of 2,588 children from the city's schools. Reports of teachers, Mr. Levee said, showed that a majority of the families were moving to other cities because of the house shortage and resultant high rents.

Plumbers Open Own Shop

YOUNGSTOWN, O., May 12.—Free plumbing prices are promised in an announcement by the United Labor congress here that 70 members of the Journeymen Plumbers' Union, who have been on strike for higher wages since May 1, have organized the Steel City Plumbing, Heating and Supply Company and have opened a shop here. The announcement said that the new concern will advertise extensively and will remain in business permanently. The striking plumbers asked \$125 an hour, which was refused by the Employers' Association.

Excelsiors Defeat Drews, 10 To 6, In Five Inning Game

Contest Was Slugfest And Pleased The Crowd, Grounds In Great Shape

This Week's Schedule
Wednesday, May 12—Solway vs. Excelsiors.
Thursday, May 13—Drews vs. Steel.
Friday, May 14—N. and W. vs. Solway.
Saturday, May 15—Solway vs. Excelsiors.

Under lowering clouds interspersed with rain, the crowd was in the grounds in great shape. The Excelsiors, who were the home team, were the first to bat. They were led by George, who was the pitcher. The Drews, who were the visiting team, were led by George, who was the pitcher. The game was a slugfest, with both teams scoring runs. The Excelsiors won the game, 10 to 6, in five innings.

The Excelsiors made two in the third on hits by Barber and Egbert, a sacrifice by Kahmar and a double by Thompson. One was chalked up in the fourth without the aid of a bit. Thompson, who had replaced Geiger, started by walking Henze, who took second on Donley's rap in the box. Henze stole and came home when Doherty missed Cornute's roller. Two more were talked in the fifth by the Excelsiors. Lowry and Wyckoff led off with singles and after Henze walked, Donley cracked out a double.

The two teams are pretty evenly matched and both are well fortified as to hitters. The batting was of a terrific nature last evening, something that suits the fans immensely. When their pitchers settle down, these teams will prove troublesome for the best of them.

While the prospect for a game this evening between Solway and the Excelsiors is not promising at the present writing, the game will be staged if at all possible. The arranging of double-headers will be attempted to it is a physical possibility. The scores:

Excelsiors AB. R. H. P. O. A. E.
Henze, 2 1 2 0 0 2 0
Donley, 10 3 1 1 3 0 1
Cornute, 1 4 1 1 7 0 0

NAMED BY WILSON FOR FEDERAL JOB

The Excelsiors were first to bat and they got out from the jump. Henze grounded to Captain Hartlage at first. Donley walked. Cornute singled hard to Manager Hatcher at third. Kahmar's walk to center bounded over Hartlage's head and rolled to the embankment being good for three sacks. He scored on Egbert's safe throw to left, making four runs in all. Gower fanned and Lowry rolled to short.

The Drews came right back, showing they have the proper nerve. Henze fielded, and Monk drove a long double to left, which Kahmar might have taken had he judged the ball properly. Doherty rolled to short. Floyd Smith hit one a mile to right. It was fielded rapidly by

Orchid Crossbreeding

While orchids from the wilds have remarkable and interesting characteristics, they are being raised and surpassed by new forms produced by hybridization in the greenhouses of experts. Now, the hybrids are many in number and are supplanting the older varieties. In part because of their exquisite beauty of color and form, their increased fragrance and their greater ease of cultivation, it is slow work, the crossbreeding of orchids, but it is a very busy task.

Les Tendler, in fighting pose, and Georges Papin.

Georges Papin, French lightweight champion brought to the U. S. by M. Deschamps, Carpenter's manager, has shown right off the reel that he possesses two admirable assets—confidence and nerve. For he has agreed to tackle a new Tandler in his first ring appearance in America. The fight will be held in Jersey City, May 12. Tendler is recognized as the most formidable contender for

Benji Leonard's crown. If Papin beats him the Frenchman can demand a match with Leonard. If Tendler annihilates the visitor, Papin will have a hard job collecting the title in the U. S.

Athletic Association Formed By Local Masons

Participation in baseball, football, tennis, swimming, golf, and other forms of athletic competition, thus bringing all forms of athletics under the direction of the association, are planned for the membership of Aurora Lodge No. 48 F. & A. A committee comprising the chairmen and secretary, Edward Strimling, Frank Appel and James V. V. was named to draft a set of regulations and constitution and bylaws. C. A. Singleton was selected as chairman of the newly formed organization now comprising some fifty Masons and Salem Shaw was named secretary. Plans were discussed for the construction of tennis courts, a swimming pool, and a golf course. It is hoped that a shipment of law and other game fish may be obtained for this territory and also some pheasants and quail for hunting. All sportsmen interested in bettering themselves and their community are urged to attend this meeting Thursday night.

PLASTER FALLS ON SLEEPER; HE TRIES TO JUMP THROUGH WINDOW; BADLY CUT Woman Was "Some Thief"

Believing that an explosion had taken place in the building and his life was endangered when the ceiling in his room fell early this morning, a woman was shown with plaster on her face and head. She was badly cut and when she awoke half of her body was hanging out of a window. She was lying on a window ledge and was covered with blood. "I was sound asleep when the plaster fell and when I awoke half of my body was hanging out of a window and I was covered with blood," the woman told a Times man who visited her room this morning. "I thought an explosion had taken place and in a half dazed condition my first impulse was to jump through a window as I was lying on the ledge. I got off the ledge and when I awoke I found my head and neck above my head. I probably won't be laid up very long."

Water seeping through from the roof soaked the plaster in his room and it fell with a crash and caused much damage to furnishings in the room.

OBITUARY

Mrs. Henry Gleim

Mrs. Henry Gleim, wife of

Henry Gleim of 2001 Hammond avenue, died at her home Tuesday evening at 5:20 o'clock. She was born at Bloom

Switz on October 27, 1856, where she spent most of her life until she and her husband moved to this city a little more than two years ago. Two boys were born to them, one preceding his mother in death.

Mrs. Gleim was a member of the First Evangelical church and a faithful attendant as long as her health permitted. She was known for her many kind deeds and her noble character.

She is survived by her husband, one son, Wilbur, two sisters, Mrs. C. P. Duffel of South Webster and Mrs. Geo. W. Hase of this city and other relatives and friends.

Funeral services are to be held at the house at 7:30 (noon time) on Thursday evening and at South Webster (Evangelical church) at two o'clock (noon time) on Friday. Rev. S. Lindemeyer officiating.

Rev. A. M. Harvot

Friends of Mr. and Mrs. Norman Baker will be pleased to hear of the sudden death of Mrs. Baker's father, the Rev. A. M. Harvot in Cincinnati.

After, Harvot who was also a prominent and successful real estate dealer in the Queen City was taken ill Thursday evening with pneumonia and died Sunday. He was 60 years old.

Rev. Harvot had been a resident of Cincinnati 25 years, and as pastor of the Central Christian church, became one of the best known ministers in that section. His health failing in 1909 he resigned his pastorate and went into the real estate business making a big success of it. At the same time he kept up his religious work and founded churches at Norwood, Oakley, Exton, Clinton and Ft. Thomas.

Mr. and Mrs. Baker are in Cincinnati to attend the funeral which will be held this afternoon. Mr. Baker will stop here a few hours tonight enroute to Washington while Mrs. Baker will remain in Cincinnati a few weeks.

Charleston Visitor

H. E. Clinton of Charleston, W. Va., was a business visitor in the city Monday.

Woman Was "Some Thief"

After a woman, who is said to live on the Boulevard, had stolen a hat valued at \$20 in The Anderson Bros. store Wednesday afternoon, she went to the Winter shoe store, where she stole five pairs of shoes, which she had concealed in her shopping bag. Hardly had the shoes been placed in the woman's handbag, than H. H. Winter detected what was going on. He stated today that she promptly

confessed to stealing the shoes in his

ter store, said today.

"I tramped her home and learned that she told the truth when she said she fired on the Boulevard. I acquainted W. W. Anderson of the Anderson store with the facts in the case and we may later on file charges against the woman, who has no excuse for stealing," Mr. Winter said today.

"I tramped her home and learned that she told the truth when she said she fired on the Boulevard. I acquainted W. W. Anderson of the Anderson store with the facts in the case and we may later on file charges against the woman, who has no excuse for stealing," Mr. Winter said today.

"The woman told me point blank that she had stolen these articles, and she returned them, and then I let her go after getting her name and address," Henry H. Winter of the Win-

ter store, said today.
